PROJECTS

Airbnb Clone [\[Github\]](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

Key Highlights:

- Built a full-stack Airbnb clone featuring authentication, property listing, booking system, and user dashboards.
- Designed and implemented RESTful APIs using Express.js and connected to a MongoDB database for seamless CRUD operations.
- Used JWT authentication and bcrypt for secure user registration and login.
- Integrated responsive UI with React and Tailwind CSS, focusing on real-world user experience.
- Handled state and UI management using React Context API and Hooks for a smooth frontend experience.
- Deployed application with Vercel (frontend) and Aws (backend) for a complete cloud-hosted solution.

Ecommerce Website [\[Github\]](#)

Tech Stack: React.js, Tailwind CSS

Key Highlights:

- Developed a fully responsive e-commerce platform with a modern UI, compatible with mobile, tablet, and desktop.
- Implemented core e-commerce functionalities including product listing, shopping cart, and interactive user experience.
- Managed global state efficiently using Context API for cart and product states.
- Leveraged React Hooks (useState, useEffect, useContext) to handle component logic and dynamic rendering.
- Focused on performance optimization and responsive layout with Tailwind CSS utility classes.

ACADEMIC AND EXTRACURRICULAR ACHIEVEMENT

- I served as a Public Relations member for Lensified, the official photography club of Netaji Subhash Engineering College. I was responsible for coordinating communication with over 50 photographers interested in participating in a photography exhibition organized by Lensified.
- Was vice captain for school cricket team
